

# Dr Maria Spindler

## Services Overview

Maria is an international organisational consultant for profit and non-profit organisations. Her consulting work is simple and complex, profound and connecting. She works with a

- process-orientated,
- systemic and eco-dynamic,
- consciousness-increasing integral approach.

The processes of future-orientated strategic development that she accompanies are characterised by an enjoyment of co-creation and down-to-earth realisation. With a warm connectedness she addresses what lies under the surface, in people, teams and organisations.

Maria sees narratives as a bottleneck for high quality, for leadership in the collective flow and as a generator for the integrative force of change of organisational structures and cultures.

Maria is based in Amsterdam (NL) and Vienna (AT). Her working languages are English and German.
